- Unique Bid
- Shopping

How Express Auctions Work – You purchase credits at 80 cents each. When you find an item you are interested in, you click to see the current lower price. Every time someone clicks on it, the price goes down 25 cents. When you are ready to buy the item, click buy now. Do not wait too long, someone else may purchase it before you.

Win Items in Unique Bid – Once you find an item you want, place your bid(s) on the item. When the auction is over, the lowest unique bidder is awarded them item. If you are the winner, you just click “Buy Now” and it is yours to purchase. Each bid is equal to one credit.

Shop, Save & Earn Reward Points at the Rewards Mall. Find an item you wish to purchase. The merchant is offering a percentage of the item price in reward points. When you purchase the item, you receive rewards points valued at \$1.00 each. Use these points to make future purchases. Remember to check the “Specials and Promotions” page for additional savings!
