**Important**

**NOTICE TO THE HOMEBUYER**

**Read Carefully**

As part of our job insuring the mortgage for the lender, the FHA requires the lender to conduct an appraisal to:

- estimate the value of your potential new home
- make sure it meets minimal FHA standards
- ensure that it will be marketable

Appraisals are different from home inspections. Home inspections give more detailed information about your potential new home.

This report is a summary of the observations of an appraiser who visited the property. If there was a problem, the appraiser answered "YES" under "Problem".

If any condition is marked [yes], this means that the property you want to buy does not currently meet FHA's Minimum Property Standards. Until this condition is resolved, your lender may not provide you with an FHA insured loan consistent with FHA procedures

You should speak to your lender about how this situation needs to be handled. You should also make sure that you are confident that the physical condition of this property meets all of your expectations

For a copy of the full appraisal, contact your lender.

If you have any questions, call us at 1-800-569-4287.
